Engineering Desk: 201-547-4411 | Traffic Desk: 201-547-4470

JOHN J. METRO
BUSINESS ADMINISTRATOR

March 8, 2022,

**NEWARK AVENUE PEDESTRIAN PLAZA IMPROVEMENTS
DECORATIVE PAVEMENT RAISED INTERSECTION**

To Whom It May Concern:

Please be advised that the City's Contractor, JCC, as part of the Newark Avenue Pedestrian Plaza Project #16-017-E, will continue to **reconstruct the roadway from Barrow Street and Newark Avenue to Bay Street and Erie Street beginning on or around Monday, March 14th, 2022 through Friday, April 1st, 2022 (weather and field conditions permitting).**

During this time, parking restrictions will be enforced as posted and the roadway will remain closed at all times to accommodate the construction and to protect the new roadway from damage. Roadways to be closed are as follows; Barrow Street from Christopher Columbus Drive to Newark Avenue, Erie Street from Newark Avenue to 1st Street, and Bay Street from Grove Street to Erie Street. Erie Street from Bay Street to 1st Street and Bay Street from Grove Street to Erie Street will temporarily become two-way streets to allow local residents access. Some parking spaces will be posted as "No Parking" to allow space for vehicles to maneuver during the temporary two-way traffic pattern. Please be courteous and allow some extra time to navigate the street. Pedestrian access to all business and residences will be maintained. The "No Parking" signs will be removed immediately upon completion of the project if it is completed prior to the specific day posted on the sign.

The planned road closure will affect local deliveries and garbage pickup. **If your business or residence is located East of Barrow/Erie Street you must bring garbage to the corner of Newark Avenue and Grove Street for pickup; if your business or residence is located West of Barrow/Erie Street you must bring garbage to the corner of Newark Avenue and Jersey Avenue for pickup. Deliveries must be made from either Grove Street, Jersey Avenue, or Columbus Drive.**

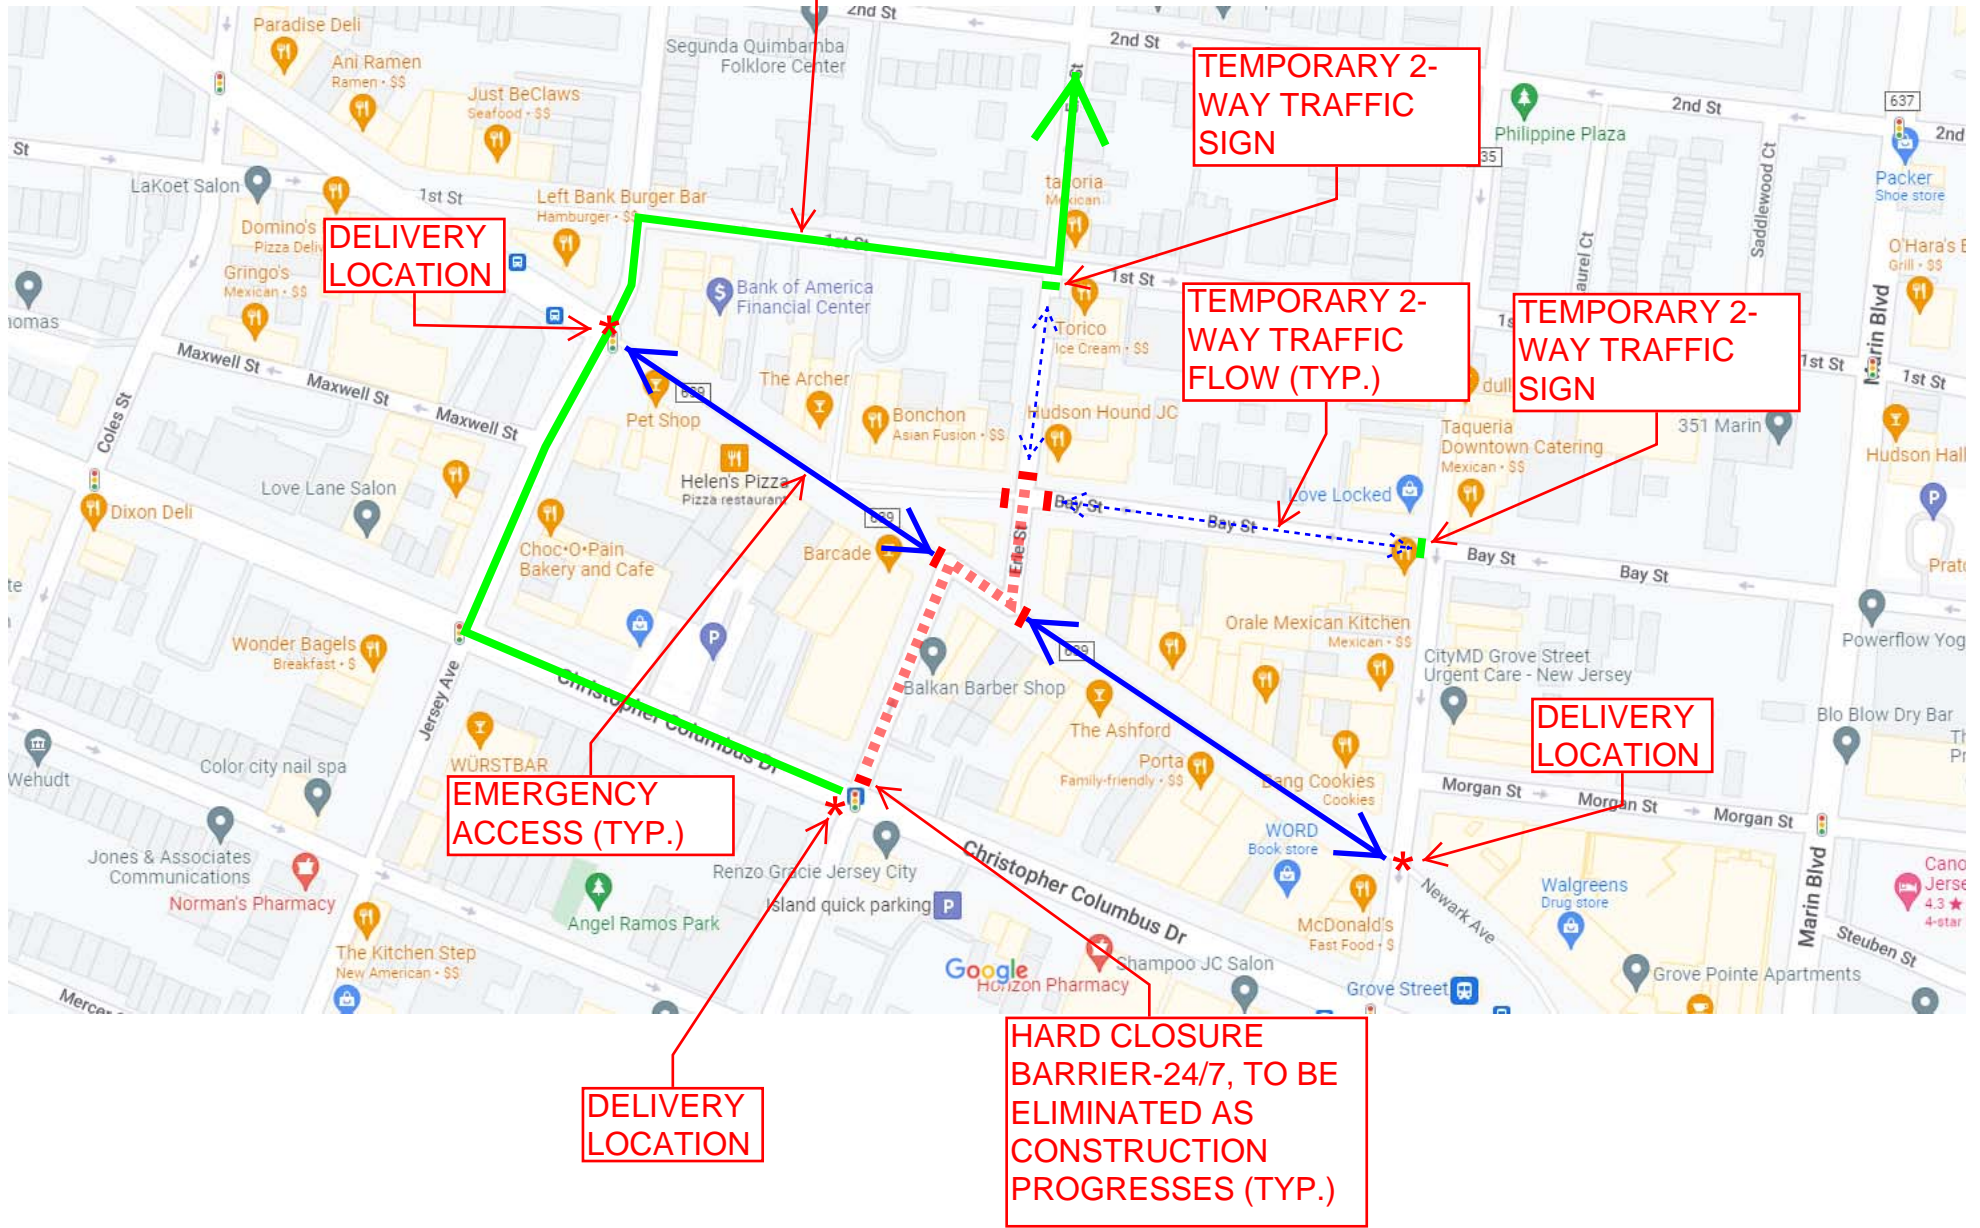

Please refer to the enclosed map for additional information.

The contractor and all workers on site will be practicing social distancing and best practices in accordance with the guidance from CDC during the current COVID-19 pandemic. Responsible behaviors and preventative measures are kept in mind while maintaining and repairing the City's infrastructure. We want to work safely and fulfill the commitment as a public servant for the advancement of Jersey City, This work improves critical infrastructure that the public depends on.

Should you have any questions regarding the construction work, please contact the Division of Engineering, Traffic and Transportation at (201) 547-4411.
